For Immediate Release

September 22nd, 2016

Clark County Trails closed

Marcus Aumann, Clark County Parks and Programs Manager

Telephone 715-743-5140

Effective immediately, please be aware that all Clark County boat landings, forest roads and trails (ATV/UTV, Mountain Bike, Horse, and Off-Road Motorcycle) will be closed until further notice due to flooding concerns. A high level of precipitation over the last 48 hours has generated multiple flash flood warnings, and may have caused wide spread trail damage and/or jeopardized user safety. We have staff inspecting the County boat landings, forest roads and trails and assessing any damage, however since we have multiple sites, an extensive trail system, and limited staff there may be areas we are not able to fix right away. If you have plans to use the system(s) this weekend please check with the Forestry and Parks department to get updates on closures.

Clark County ATV/UTV trails are subject to periodic closure. Please visit the county website at www.co.clark.wi.us for updated trail information. Clark County ATV/UTV trails close October 31st each year.
