Flood Preparedness – 30 sec.

Will you be prepared when the next flood strikes? Make a family plan now. Get flood insurance. Teach all family members and post written instructions on how and when to turn off gas, electricity and water to reduce damage to your home. Store insurance policies and important documents in a safe place. Designate two flood-safe evacuation routes from your home and have kit of emergency supplies ready to take with you. Plan for how you'll communicate if your family gets separated. For more information, go to ReadyWisconsin.wi.gov.
