Winter Emergency Home Kits – 45 sec.

Is your home prepared if a winter storm leaves you with a power outage? You need an emergency supply kit. Get bottled water and non-perishable food that doesn't need cooking; a battery-powered radio and NOAA weather radio; flashlights; extra batteries; first aid supplies; extra medications and baby supplies; and plenty of food & water for your pets. Keep them all in a large container. If you have an emergency heating source, such as a fireplace or space heater, be sure you have proper ventilation, a fire extinguisher, smoke detector and carbon monoxide detector. And don't ever use a generator or barbecue grill inside your home. Stay safe this winter. Be prepared. For more information go to Ready.wi.gov.
