Tornado Safety

Are you and your family Tornado Ready? If not — there's no time to waste!

When a Storm Forms

LISTEN

- ☛ To your NOAA Weather Radio All-Hazards
 - It's like a smoke detector for severe weather and hazardous conditions
 - It will tell you all about dangerous weather that's on the way
 - It will sound an alarm to get your attention or wake you up so you can get to safety

Tornado Watch

LISTEN—A Watch means conditions are right for a tornado to maybe form

KEEP AN EYE ON THE SKY

- ☛ Watch for tornado clues
 - Dark or greenish sky • Wall Cloud • Large Hail • Cloud of Debris • Funnel Cloud • Roaring Noise
 - May be hidden and invisible in a wall of rain
 - May appear at the tail end of a storm and even have clear, blue skies behind it

Tornado Warning — TAKE SHELTER NOW!!

LISTEN—A Warning means a tornado has been spotted in your area or on radar

Inside a sturdy building

- ☛ Go to a basement
- ☛ If there is no basement, go to a windowless interior room or hallway
 - Put as many walls as possible between yourself and the outside
 - Get under a sturdy table, curl up and cover your head with your arms and a pillow or blanket
- ☛ Do not open windows

In a mobile home, trailer or car

- ☛ Get out! Go to the nearest sturdy building

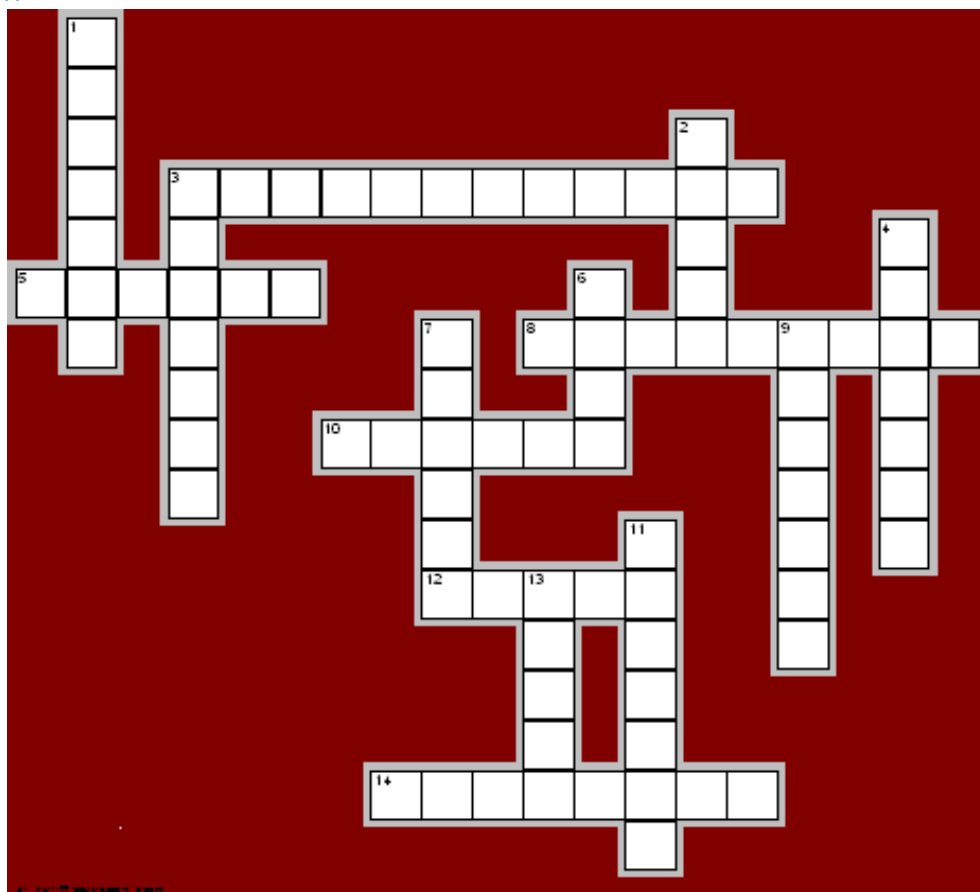

Outdoors with no shelter

- ☛ Find a low spot or depression, lie flat and cover your head with your arms
- ☛ Stay away from bridges & overpasses
- ☛ Never try to outrun a tornado
- ☛ Watch out for flying debris

TM
